WORK EXPERIENCE

Goldman Sachs

Business Analytics Analyst

Dallas, TX

Jun 2024 – Present

- Deliver end-to-end analytics solutions across Asset & Wealth Management by translating business requirements into scalable data workflows and reporting tools used by 150+ stakeholders across risk, strategy, and operations.
- Identify and remediate operational inefficiencies in partnership with cross-functional stakeholders, redesigning 8 core workflows and reducing manual processing time by ~70%.
- Develop and maintain 5 executive-facing Tableau dashboards tracking portfolio risk, operational activities, and transformation KPIs, enabling performance monitoring and supporting leadership decision-making.
- Strengthen Alteryx and SQL-driven data pipelines by implementing incremental refresh logic and robust error-handling frameworks, improving data reliability and supporting concurrent usage by 25+ power users.
- Respond to ad hoc analytical requests from senior stakeholders by delivering timely insights, datasets, and visualizations to support operational and strategic decisions.

Affinius Capital

Financial Analyst Intern

San Antonio, TX

Sep 2023 – May 2024

- Supported strategic operational initiatives during Investor Portal migration for 15+ investor groups, mitigating reporting discrepancies and ensuring regulatory-grade data integrity across investor communications.
- Partnered with business stakeholders to streamline investor reporting processes through automation using Excel and Workiva, producing standardized reports that improved reporting transparency.

Trinity University - Finance and Decision Sciences Department

Teaching Assistant

San Antonio, TX

Aug 2023 – Dec 2023

- Conducted office hours and tutoring sessions for the Machine Learning course, providing targeted support on assignments and concepts, contributing to an average 30% improvement in final grades.

Goldman Sachs

Business Intelligence Intern

Salt Lake City, UT

Jun 2023 – Aug 2023

- Redesigned Alteryx workflows and optimized SQL queries supporting Asset Servicing operations, reducing workflow execution time by 60% and enabling a daily automated reporting cadence for 20+ users.
- Developed executive-facing Corporate Action dashboards that enhanced visibility into key operational metrics and supported faster, data-driven decision-making across business stakeholders.

Trinity University - Information Technology Services

Technical Support Analyst

San Antonio, TX

Aug 2021 – Aug 2023

- Resolved technical support tickets for campus users, consistently achieving a 94% first-contact resolution rate in a high-volume ticket environment.
- Analyzed recurring ticket patterns and recommended process improvements to streamline issue resolution and reduce repeat support requests.
